

Homework Module 1- Testing Foundations and QA Mindset

Daria Pop

Site: [Acasă - Facultatea de Electronică, Telecomunicații și Tehnologia Informației](#)

Bug report 1

Summary/Title: Navigation buttons overlap with text when switching to mobile mode

Environment: Browser-Microsoft Edge, version 154.0.4258.37

Steps: 1. Enter [Acasă - Facultatea de Electronică, Telecomunicații și Tehnologia Informației](#)

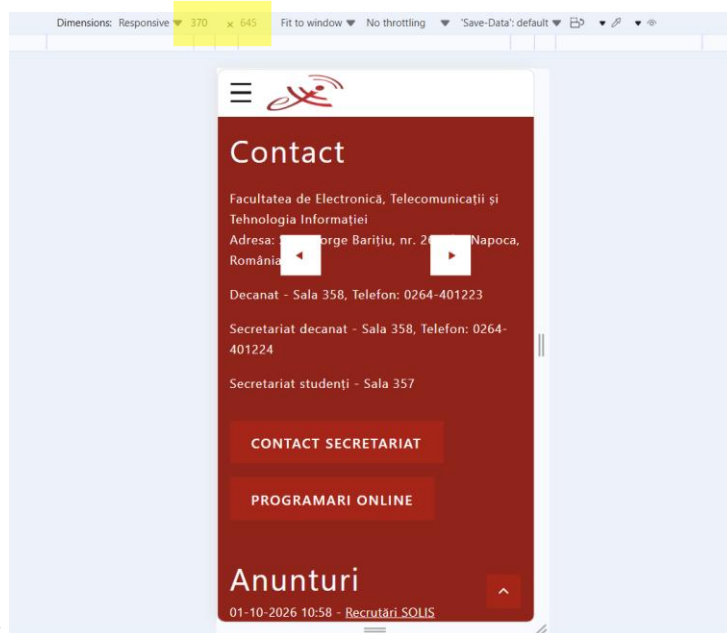

2. Open Developer Tool by pressing F12 and switch to mobile mode

3. Resize the window for a screen dimension 370x645 (example)

4. Scroll to Contact section

Expected: Navigation buttons position outside the text block

Actual: Navigation buttons overlap with text

Evidence:

Impact: Medium

Bug report 2

Summary/Title: The main page blocks into an infinite loading returning from another tab, requiring manual refresh

Environment: Browser-Microsoft Edge, version 154.0.4258.37

Steps: 1. Enter [Acasă - Facultatea de Electronică, Telecomunicații și Tehnologia Informației](#)

2. Go to EDUCATION->SCHEDULE

3. Access any schedule

4. Close the tab and come back to the page

Expected: The main page remains functional and interactive, requiring no additional actions

Actual: The main page blocks into an infinite loading, requiring manual refresh to continue the navigation

Evidence:

Orar - Facultatea de
Electronică, Telecomu

Impact: High

Bug report 3

Summary/Title: Partial translation when selecting the English version of the page

Environment: Browser-Microsoft Edge, version 154.0.4258.37

Steps: 1. Enter [Acasă - Facultatea de Electronică, Telecomunicații și Tehnologia Informației](#)

2. Go to ENGLISH (right upper corner)

3. Scroll to “PAGINI VIZITATE FRECVENT”

Expected: The entire content of the page is translated into English

Actual: Only a part of the page is actually translated, resulting a mix of Romanian and English

Evidence:

Acasă - Facultatea de
Electronică, Telecomu

Impact: High**Test case 1**

ID/Title: Verify that a student can book an appointment with the secretariat

Preconditions: student confirms identity; appointment slot is available

Steps: select slot, respond to the security question, confirm details

Expected: appointment is created, a confirmation message appears and an email is received

Test case 2[Hrană și accesorii pentru animale de companie la zooplus](#)

ID/Title: Verify that a client can complete an order

Preconditions: the client is logged in; the products are added to the shopping cart; the details about the address and payment method are completed

Steps: confirm all the details, place order

Expected: the order is placed; confirmation message and mail are sent; the payment succeeded

Test case 3

ID/Title: Verify that a client can log in to their account

Preconditions: a valid account already exists

Steps: enter the correct credentials; log in

Expected: the client logs in successfully in their account

Testing techniques:

1. DevTool- compatibility; it was used to simulate a mobile device, adjusting the resolution of the screen; the position of the elements was observed, so they do not overlap
2. Translating the page using the site ENGLISH button- it was used to check that the entire page is translated into English correctly
